

ROMAN OKHREMOV

Frontend / Full-Stack Developer (React / Next.js / TypeScript / Node.js)

Khmelnitskyi, Ukraine • romariotraveler@gmail.com

GitHub: <https://github.com/RomanFrontEndDeveloper>

LinkedIn: <https://linkedin.com/in/roman-okhremov-9b0764369>

Portfolio: <https://portfolio-react-roman-okhremov.netlify.app>

PROFESSIONAL SUMMARY

Frontend / Full-Stack Developer with strong experience building modern, production-oriented web applications using React, Next.js, TypeScript, and Node.js. Proficient in Feature-First Architecture, PNPM Monorepos, REST API design, advanced JWT authentication strategies, and database-driven applications.

Focused on creating responsive, high-performance user interfaces, clean component architecture, secure backend integrations, maintainable code, reliable data flows, and practical production-style engineering.

TECHNICAL SKILLS

Frontend: React 19, Next.js 16 (App Router), TypeScript, JavaScript (ES6+), HTML5, CSS3/SCSS, Tailwind CSS, Framer Motion, React Hook Form, Zod, TanStack Query, Axios, Next/Image

Backend: Node.js, Express.js, TypeScript, REST API, MongoDB, Mongoose, JWT, bcrypt, Multer

Architecture & Patterns: Feature-First Architecture, PNPM Monorepo, CRUD, RESTful APIs, RBAC, Ownership-Based Authorization, Centralized Error Handling

State & Data Management: TanStack Query, Redux Toolkit, React Context API

Cloud & Integrations: Cloudinary, SalesDrive CRM API, Telegram Bot API, Map/Geocoding APIs

Tools & DevOps: Git, GitHub, VS Code, Postman, Swagger, ESLint, Prettier, Vercel, Render, pnpm

PROJECTS

Roman Real Estate — Full-Stack Marketplace Platform

Stack: Next.js 16, React 19, TypeScript, Tailwind CSS, Node.js, Express.js, MongoDB, Mongoose, JWT, Cloudinary, TanStack Query, Zod

Live: <https://roman-real-estate-2.vercel.app/>

GitHub: <https://github.com/RomanFrontEndDeveloper/roman-real-estate-2>

- Engineered a full-stack real estate marketplace using Next.js App Router, Node.js/Express REST API, and MongoDB.
- Structured the project with a PNPM Monorepo and Feature-First Architecture for maximum code modularity and maintainability.
- Implemented secure authentication with short-lived access tokens, refresh tokens, HttpOnly cookies, automatic token refresh, RBAC, and ownership-based authorization.
- Built dynamic property management featuring multi-criteria search and filtering by location, price, bedrooms, and area, URL-based state persistence, and pagination.
- Implemented sorting, interactive map views, and location geocoding.
- Implemented property image management, Cloudinary integration, favorites, agents, agencies, and agency member functionality.
- Optimized data delivery using MongoDB indexes, query optimization, API rate limiting, validation, and centralized error handling.

Lead Integration App — CRM & Automation Platform

Stack: Next.js, TypeScript, SalesDrive CRM API, Telegram Bot API, Tailwind CSS, Zod

GitHub: <https://github.com/RomanFrontEndDeveloper/lead-integration>

- Architected a secure lead collection pipeline with client/server schema validation using Zod and anti-spam safeguards.
- Integrated SalesDrive CRM API and Telegram Bot API for automated lead routing and operational notifications.
- Implemented secure server-side API handling via Next.js server-side functionality and API routes.

EXPERIENCE

Independent Project Developer / Freelance — Full-Stack Developer

2023 — Present | Khmelnitskyi, Ukraine

- Architect and deliver responsive full-stack applications using React, Next.js, TypeScript, and Node.js.
- Design and document RESTful APIs backed by MongoDB/Mongoose models, enforcing robust authentication, input validation, and role-based access control.
- Implement performance optimizations including server-side rendering (SSR), static site generation (SSG), lazy loading, and image optimization via Cloudinary.
- Work with Git/GitHub following clean code conventions, Feature-First organization, debugging, refactoring, and maintainable development workflows.
- Deploy and maintain applications using cloud platforms such as Vercel and Render.

EDUCATION

Khmelnitskyi National University — Engineering Degree | 2008 — 2013
